HELLSING 7

What do you get when you mix reanimated Nazis, vampires, and freaky killer Catholics and Protestants breathing down each others' necks? In the case of Hellsing, you get an all-out, bloody war. Or such has proven to be the case so far. The world is engulfed in the flames of destruction, and all seems lost. Vernedead's "Geese" are literally being eaten alive, and it might just take half-vampire, Seras Victoria, a certain loss of innocence to provide a shred of hope. But that's not all this story hinges on. The vampire Hellsing himself will surely show at some point, and the Catholic Iscariot Army, a dreaded force, is also on the march. This is a situation of boiling blood, and it's about to burst!

Kohta Hirano's *Hellsing* is so hot that they're producing yet another anime series in Japan, faithful to the storyline of this very manga. Get it before you get bit!
